COUNCIL OF SCIENTIFIC AND INDUSTRIAL RESEARCH

THE

NEW ZEALAND JOURNAL OF SCIENCE AND TECHNOLOGY

VOLUME 31

A. AGRICULTURAL SECTION

CONTENTS

VOLUME 31, 1949-50

A. AGRICULTURAL SECTION

No. 1—June, 1949

PAGE

The Effect of Starvation, and of Feeding after Starvation, on Metabolic Activity in the Rumen, by *I. E. Coop.* 1

Methods for Determining the Viability of Various Seeds by Tetrazolium Staining I. Chewings Fescue, by *E. O. C. Hyde.* 13

Control of Fermentation in Honey by Indirect Heating and Drying, by *W. J. Fix* and *T. Palmer-Jones.* 21

The Measurement of Feed Intake by Grazing Cattle and Sheep. I. A Method of Calculating the Digestibility of Pasture Based on the Nitrogen Content of Faeces Derived from the Pasture, by *R. J. Lancaster.* 31

Increase in the Molybdenum Content of Pasture on an Acid Peat Soil from Top-dressing with Ammonium Molybdate, by *I. J. Cunningham* and *K. G. Hogan.* 39

The Control of Copper Deficiency in Lambs in New Zealand, by *I. J. Cunningham.* 42

Review : Advances in Grassland Husbandry and Fodder Production. Bulletin No. 38 of the Imperial Bureau of Pastures and Field Crops. 48

No. 2—August, 1949

Studies in Monozygotic Cattle Twins. II, by *J. Hancock.* 1

The Blackberry Mite (*Aceria essigi*), by *Avice Hamilton.* 42

A Recent Outbreak of Honey Poisoning. VII, by *T. Palmer-Jones* and *E. P. White.* 46

No. 3—October, 1949

The Metabolism and Toxicity of Cyanides and Cyanogenetic Glaucosides in Sheep. II. Detoxication of Hydrocyanic Acid, by *R. L. Blakley* and *I. E. Coop.* 1

Studies on a Fungus (*Septoria pisi* Westend.) Causing a Foliage Disease of Peas (*Pisum sativum* L.), by *I. A. M. Cruickshank.* 17

A Note on Sex Ratios in a Romney Marsh Stud Flock, by *R. A. Barton.* ... 24

Determination of Mercury on Wheat treated with an Organic Mercurial Seed Disinfectant, by *H. J. McCoach.* 25

Thyroid Weights of Cattle, by *I. L. Campbell, M. G. Holland* and *D. S. Flux.* ... 29

Copper Deficiency of Onions Grown on Peat. II, by *A. F. R. Adams.* ... 35

No. 4—December, 1949

Studies of Phormium Management, Moutoa Estate, Foxton, by *A. L. Poole* and *W. R. Boyce.* 1

Vitamin Content of New Zealand Meats, by *W. A. McGillivray.* 23

Note on Boron Deficiency in Wharekohe Silt Loam, by *A. C. S. Wright* and *E. J. S. Gridley.* 36

The Effect of Periods of Pre-Storage Delay on the Ground-Colour and Cool-Storage Disorders of Granny Smith Apples, by *C. A. S. Padfield.* ... 40

No. 5—February, 1950

PAGE

A note on "Available" Copper in New Zealand Soils, by *A. C. S. Wright* and *H. W. Johnston*. 1
Evaluation of the Chiller Beef Carcass, by *H. Kneebone, T. Marks, C. P. McMeekan* and *D. E. Walker*. 3
The Seasonal Incidence of the Codling Moth (*Cydia Pomonella* L) in the Manawatu, by *J. Robb*. 15
Studies in Monozygotic Cattle Twins. III. Uniformity trials. Milk and Butterfat Production, by *J. Hancock*. 23
Control of Bacterial-spot of Plum, by *W. D. Reid*. 40
The Metabolism and Toxicity of Cyanides and Cyanogenetic Glaucosides in Sheep. III. Toxicity, by *I. E. Coop* and *R. L. Blakley*. 44
Commonwealth Agricultural Bureaux Advertisement. 59
Approved Names for Pest Control Products. 60

No. 6—April, 1950

The Development of Waikato Peat Soils, by *F. B. Thompson* and *I. L. Elliot*. 1
Microscopic Examination of the Sectioned Stem of Linen Flax (*Linum usitatissimum*), by *Melva N. Crozier*. 17
Effect of Chemicals and Antibiotic Substances on Crown-gall (*Agrobacterium tumefaciens* (Smith and Townsend) Conn). I. Colchicine and Penicillin, by *D. W. Dye, P. B. Hutchinson* and *A. Hastings*. 31
Trials on some Commercial Plant-growth Substances for the Control of Fruit Drop, by *D. W. McKenzie*. 41
Scion Rooting in Gravenstein Nurse Grafts, by *C. E. Woodhead*. 47
Preheating of Cream before Vacreator Vacuum-pasteurisation in relation to the Quality of Butter, by *F. H. McDowall, T. A. Singleton* and *J. J. O'Dea* ... 51
Resistance of Linseed and Linen Flax to Flax Rust (*Melampsora lini*) in New Zealand, by *I. A. M. Cruickshank*. 54
Zinc Content of Leaves and Fruit Spurs of Apple Trees, by *Joyce Watson*. ... 58
Effect of Temperature on Chinese Gooseberries in Cool Store, by *C. A. S. Paddfield* and *M. J. Bridgman*. 61
Dairy Cow Efficiency, by *K. J. Mitchell*. 67
Note on the Reaction of Activated Glycerol Dichlorohydrin with Carotene and its oxidation Products, by *W. A. McGillivray*. 78

INDEX

VOLUME 31, SECTION A

PAGE

Aceria essigi, The blackberry mite ... ... (6)42
Acid peat soil, Increase in the molybdenum content of pasture on an, from top-dressing with ammonium molybdate ... ... (1)39
Activated glycerol dichlorohydrin with carotene and its oxidation products, Note on the reaction of ... ... (6)78
Adams, A. F. R.; Copper deficiency of onions grown on peat, II. ... ... (3)35
Agrobacterium tumefaciens (Smith and Townsend) Crown-gall, Effect of chemicals and antibiotic substance on, ... (6)31
Antibiotic substance on Crown-gall (*Agrobacterium tumefaciens*) Effect of chemicals and ... ... (6)31
Apples, Granny Smith, The effect of periods of pre-storage delay on the ground colour and cool storage disorders of ... ... (4)40
Apple trees, Zinc content leaves and fruit spurs of ... ... (6)58
Approved names for pest control products ... ... (5)60

Bacterial-spot of plum, Control of ... ... (5)40
Barton, R. A.; A note on sex ratios. ... ... (3)24
Blackberry mite (*Aceria essigi*), The ... ... (2)42
Blakley, R. L., Coop, I. E.; The metabolism and toxicity of cyanides and cyanogenetic glucosides in sheep. II. Detoxication of hydrocyanic acid (3)1
Boron deficiency in Wharekohe silt loam, Note on ... ... (4)36
Boyce, W. R. (see Poole, A. L. and Boyce, W. R.) ... ... (4)1
Bridgman, M. J.: (see Padfield, C. A. S. and Bridgman, M. J.) ... ... (6)61
Butter, quality of . . ., Preheating of cream before Vacreator vacuum-pasteurisation in relation to the ... ... (6)51

Campbell, I. L., Holland, M. G. and Flux, D. S.: Thyroid weights of cattle ... (3)29
Cattle and sheep, grazing, Measurement of feed intake by, I. ... ... (1)31
Cattle, Thyroid weights of ... ... (3)29
Cattle twins, Monozygotic, II. Studies in ... ... (2)1
Cattle twins, III. Uniformity trials. Milk and butterfat production, Studies in Monozygotic ... ... (5)23
Chemicals and antibiotic substance on Crown-gall (*Agrobacterium tumefaciens*), Effect of ... ... (6)31
Chiller beef carcass, Evaluation of the ... ... (5)3
Chinese gooseberries in cool-store, Effect of temperature on ... ... (6)61
Codling moth (*Cydia pomonella*) in the Manawatu, Seasonal incidence of the ... (5)15
Commercial plant-growth substances for the control of fruit-drop, Trials on ... (6)41
Control of bacterial-spot of plum. ... ... (5)40
Control of fermentation in honey by indirect heating and drying ... ... (1)21
Control of copper deficiency in lambs in N.Z., The ... ... (1)42
Cool-storage disorders of Granny Smith apples ... ... (4)40
Coop, I. E.: The metabolism and toxicity of cyanides and cyanogenetic glucosides in sheep. III. Toxicity ... ... (5)44
Coop, I. E.: The effect of starvation on metabolic activity in the rumen ... (1)1
Copper deficiency of onions grown on peat II. ... ... (3)35
Copper in N.Z. soil, A note on " Available " ... ... (5)1
Cow efficiency, Dairy ... ... (6)64
Crown-gall (*Agrobacterium tumefaciens*), Effect of chemicals and antibiotic substance on ... ... (6)31
Crozier, Melva N.: Microscopic examination of the sectioned stem of linen flax (*Linum usitatissimum*) ... ... (6)17
Cruickshank, I. A. M.: Resistance of linseed and linen flax to flax rust (*Melampsora lini*) in New Zealand ... ... (6)54
Cruickshank, I. A. M.: Studies on a fungus (*Septoria pisi* Westend) causing a foliage disease of peas (*Pisum sativum* L.) ... ... (3)17
Cunningham, I. J.: The control of copper deficiency in lambs in New Zealand ... (1)42
Cunningham, I. J., Hogan, K. G.: Increase in the Molybdenum content ... (1)39
Cyanides and cyanogenetic glucosides in sheep, The metabolism and toxicity of (3)1
Cyanides and cyanogenetic glucosides in sheep. III. Toxicity, The metabolism and toxicity of ... ... (5)44
Cyanogenetic glucosides in sheep, cyanides and . . ., The metabolism and toxicity of ... ... (3)1
